# Toughness!

Robust Full Touch Handheld for Android Apps

# Robust and durable

Android mobile computer with bright touch display, High-speed imager, NFC/RFID, GPS, WLAN, LTE WWAN

## The Device at a Glance:

- Proven: Android 6 operating system for a wide range of apps
- Strong: ARM® Cortex® A53 Quad Core Prozessor (1.2 GHz)
- Certified: SAP and GK Software - SAP Offline Mobile Store by GK
- Lightweight and robust: 325 g, IP67 protection class, 1.5 m drop resistance
- Scratch and break resistant: Toughened glass display screen
- Durable: Large battery sizes: 5.800 mAh
- Ergonomic: Compact housing design with a large touch display and two scan buttons on the side
- High reading performance: Professional 1D / 2D imager
- Practical: Two digital cameras
- Flexible: NFC/RFID functionality
- Secure investment: Professional hardware quality with optimum availability and first-class product support

## Touch handheld for industrial use

As powerful as a top smartphone and as robust as the proven Japanese handhelds: The CASIO IT-G400 mobile computer, a full-touch handheld with Android operating system, opens up new fields of application in industry, retail, logistics and services. The device contains components that have already been proven to be top-class in handhelds used industrially.

For example, a professional imager is integrated into the housing, which is easy to grip and made of durable plastic. The five-inch touch display is almost unbreakable and extremely scratch-resistant. The IP67 rating indicates that the device is well protected against the ingress of dust and water, making it particularly well-suited for outdoor use in wind and weather. It is fully functional at temperatures between -20 and +50°C. Come rain or sunshine the CASIO IT-G400 has the ideal

features to prove its worth all day long.

Power for a long working day is supplied by Japanese-made batterie cells.

## Powerful high-speed imager

The integrated CMOS imager is of the latest design, and extremely fast and powerful. A clearly-visible targeted laser aimer enables barcode labels to be captured.

The imager can read multiple codes – even damaged ones – simultaneously at lightning speed. Good or bad reads are confirmed optically, acoustically and with vibration. This is useful in a noisy environment. Effective filter against high-frequency flickering under modern LED lighting allows for constant reading quality.

Two side-mounted trigger buttons for the reading procedure reduce finger movements to a minimum for both right-handed and left-handed users.

## Professional CMOS imager, perfectly integrated

In contrast to commercially available smartphones and their rugged versions which mostly read identification codes via their digital camera, the IT-G400 full-touch handheld has a professional imager.

## On the Way Across all Networks

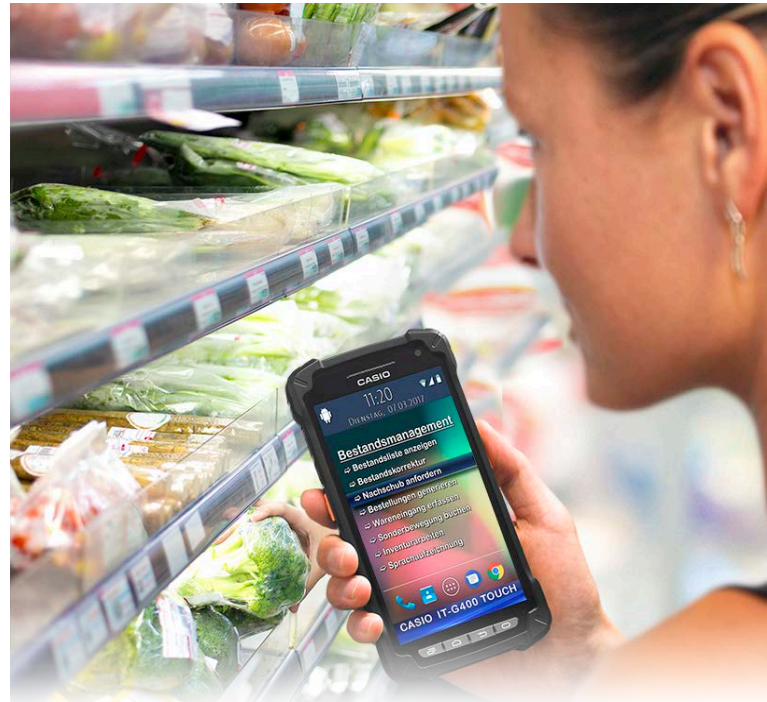

Bluetooth® (4.1), WLAN (IEEE 802.11 a/b/g/n) and LTE WWAN are available for fast data communication. A fast USB interface allows the device to be connected to vehicle mounts and docking stations.

## Ideal for mobile applications

The CASIO IT-G400 full-touch handheld is equipped with the powerful ARM Cortex® A53 quad-core processor (1.2 GHz). Together with generous memory storage (2 GB RAM and 16 GB FROM), the device provides high levels of performance. The combination of powerful hardware and a modern operating system means that the device represents a secure investment over many years and is ideal for a wide range of applications.

## RFID/NFC, digital camera and GPS

Common protocols in the field of contactless smart cards and near field communication (NFC) are supported. The 8 megapixel digital camera is perfect for creating pictures for quality control and damage recording. The current location can be easily determined by the position coordinates of the integrated GPS.

### Full-touch handheld for industry, retail and service

In conjunction with its robust design and long-lasting performance, the professional features of the CASIO IT-G400 set new standards in terms of user agreement and investment security. The non-slip surface and special shape of the back of the device guarantee easy, fatigue-free operation.

Model Overview:		IT-G400-C21L	IT-G400-WC21L
WLAN		•	•
WWAN			•
<b>Specifications:</b>			
<b>Model Name</b>		CASIO IT-G400 series	
<b>CPU</b>		ARM® Cortex®-A53, 1.2 GHz, quad-core	
<b>Operating System</b>		Android 6.0.1 with GMS (Google Mobile Services)	
<b>Memory</b>	<b>RAM</b>	2 GB	
	<b>FROM</b>	16 GB	
<b>Display</b>	<b>Size</b>	5.0 inch (127 mm) diagonal	
	<b>Resolution</b>	720 x 1,280 pixels, 16,700,000 colours	
	<b>Technology</b>	TFT colour LCD with LED backlight and touch panel	
<b>Input</b>	<b>Keyboard</b>	Virtual screen keyboard (alphanumeric) and 4 buttons on the front for "Recent App", "Home", "Back" and programmable function key, 3 side buttons for "On / Off", "Volume + / -", "Reset"	
	<b>Scan Trigger</b>	2 scan release buttons (left and right)	
	<b>Touch-screen</b>	Capacitive touch panel with scratch-resistant surface (Toughened Glass)	
<b>Wireless Communication</b>	<b>WLAN</b>	IEEE 802.11 a/b/g/n, security standard and encryption WEP, WPA, WPA2	
	<b>WWAN</b> (model dependent)	LTE FDD&TDD, WCDMA (900/2100 MHz), EGPRS (EDGE), GPRS, GSM (850/900/1800/1900 MHz)	
	<b>Bluetooth®</b>	Bluetooth® version 4.1+ EDR/LE	
	<b>GPS</b> (model dependent)	GPS, GLONASS and BeiDou, NMEA-0183, standard in versions with WWAN	
<b>Interfaces</b>	<b>Memory Card Slot</b>	Compatible with microSD memory cards (SDHC)	
	<b>SIM Card Slot</b>	Compatible with mini SIM cards ISO 7816	
	<b>USB Port</b>	Version 2.0 high-speed (host/client), USB connection via 16-pin I/O connector	
	<b>Headset Connector</b>	3.5 mm jack for earphone and microphone	
<b>Digital Camera</b>	<b>Front</b>	Photo / video, resolution 2.0 MP	
	<b>Back</b>	Photo / video, resolution 8.0 MP, autofocus and LED flash	
<b>Audio</b>		integrated microphone and receiver for telephony, speaker for signals and alarms etc.	
<b>Vibrating Signal</b>		Confirms successfully decoded ident codes	
<b>Imager</b>	<b>Technology</b>	CMOS imager, resolution 832 x 640 px, 1D = 0.127 mm, Stacked = 0.168 mm, Matrix = 0.191 mm	
	<b>Reading Distance</b>	50 - 400 mm, depending on type (1D, 2D), size and print quality of the ident code	
	<b>Aimer</b>	Laser beam 650 +10/-5 nm, power 1 mW or less	
	<b>Readable 1D Symbolologies</b>	EAN-8, EAN-13, UPC-A, UPC-E, ITF 2/5-Interleaved, Codabar (NW-7), Code11, Code 32, Code39, Code93, Code128, GS1-128 (UCC/EAN128), MSI, ISBT, GS1 DataBar Omnidirectional, GS1 DataBar Truncated, GS1 DataBar Limited, GS1 DataBar Expanded, 2/5-Industrial	
	<b>Readable 2D Stacked-Codes</b>	GS1 DataBar Stacked, GS1 DataBar Stacked Omnidirectional, GS1 DataBar Expanded, Stacked PDF417, Micro PDF, Composite, Codablock F	
	<b>Readable 2D Matrix-Codes</b>	DataMatrix, Maxicode, QR-Code, Aztec-Code, Micro QR Code	
<b>RFID / NFC Functionality</b>	<b>Technology</b>	Reader / writer, NFC interface, frequency 13.56 MHz	
	<b>NFC Standards</b>	ISO 14443 type A/B, Mifare®, FeliCa®	
	<b>RFID Standards</b>	ISO 15693, I-CODE SLI®	
<b>Sensors</b>	<b>Proximity sensor</b>	Response optimized at 940 nm, threshold 425 ~ 475	
	<b>Luminance sensor</b>	Response optimized at 550 nm, dynamic range 0.01 ~ 1700 Lux	
	<b>Acceleration sensor</b>	3-axis digital acceleration sensor	
	<b>Gyro sensor</b>	3-axis digital gyroscope	
<b>Power</b>	<b>Operation</b>	3.85 V lithium-ion battery pack: standard = 5,800 mAh	
	<b>Memory Backup</b>	Integrated lithium-ion battery	
<b>Environment</b>	<b>Drop Durability</b>	Drop height: 1.50 m onto concrete	
	<b>Dust / Water Durability</b>	IP67 protection rating, IEC 60529 compatibel (dust-proof and water-resistant)	
	<b>Operating Environment</b>	Temperature range -20 to +50 °C, relative humidity 10 to 90 % (no condensation))	
<b>Dimensions (W x H x D)</b>		Approx. 82 x 158 x 24 mm	
<b>Weight</b>		Approx. 325 g incl. battery
