

## RP901 UHF RFID Pocket Reader

The Unitech RP901 takes the chore out of scanning UHF tags by using the latest in radio frequency identification (RFID) technology. RFID tags can be read at a distance, can pick up multiple tagged items, and greatly reduce your scanning times as it allows you to identify objects via wireless communication. Unique from typical RFID readers, this pocket-sized UHF RFID reader is the first of its kind because of its grippable size. It communicates with iOS, Android, and Windows mobile devices via BT wireless technology and works in a variety of applications such as retail in-store item-level tagging and enterprise asset management.

#### Compact UHF RFID Device

Standing at 4.2 inches and weighing 4 ounces, the RP901's small size fits nicely in shirt pockets and back pockets for on-the-go data collection. It operates on single or multiple scanning mode for superior UHF reads with its compressed, high performance antenna. A single 4-hour battery charge lasts a full shift with up to 6,000 reads per charge. A three-foot reading range empowers you with the ability to scan hard-to-reach tags.

#### Intuitive and Easy to Use

Never miss a tag due to out-of-range scanning. The RP901 stores up to 2MB of data when a wireless signal isn't detected. Single-button operation allows you to batch upload or transmit information seamlessly to Bluetoothenabled devices. This pocket reader displays various colored LED signals to indicate communication, battery level, and collection statuses. The RP901 features a built-in, changeable lithium battery that charges powerfully fast by utilizing a micro USB charger stand.

#### Wireless Communications

Integrating BT 2.1 wireless technology, this UHF pocket reader effortlessly pairs to desktop computers and multiple mobile devices including consumer smart phones, tablets, and computers running on Windows, Android, and iOS. The device's compact portability permits a wide operating range of up to 32 feet from the host, giving you plenty of freedom of movement. Additionally, the RP901 reader's rugged design, 5-foot drop rating, and IP42 environmental seal adds to its take anywhere usability.

#### Main Features:

- User-friendly, pocket-sized device
- Supports multi-protocol ISO 18000-6C, EPC Class 1 Gen 2
- Multiple frequency bands (EU 868 MHz, US 915 MHz)
- Bluetooth 2.1 pairing
- 5-foot drop protection
- IP42 rated
- High capacity rechargeable lithium battery
- Over 6,000 scans on a single battery charge

### RP901 **Specifications**

#### System

Memory	2MB
Operation Voltage	3.7VDC
Battery	3.7V, 1100
Battery Life	6,000 scan
Charge Time	4hrs (fully ch

OmAh, lithium Battery าร harged)

#### **Reader Performance**

860MHz ~ 960MHz (By country defined) Frequency RFID protocol EPC global Class1 Gen 2, ISO/IEC 18000-6C Antenna UHF compact antenna Read Mode Multiple tag / single tag mode Reading Distance up to 100 CM (depends on RFID tag)

#### Mechanical

Dimensions 4.4" L × 2.1" W × 1.1" H (109.3mm L x 54.1mm W x 28.1mm H) Weight 3.7 oz (106g) (with battery) Material PC

#### Environmental

Operating 14° F to 122° F (-10° C to 50° C) Temperature -4° F to 140° F Storage Temperature (-20° C to 60° C) Humidity 0% to 95% (non-condensing) IP Rating IP42 Drop Durability 5 feet (1.5M)

#### Communication / Indicators

Radio	
Range	
Interface/Profile	
Indicators	

BT 2.1 + EDR 10m (line of sight) BT (SPP/HID), micro USB (HID/VCP) LED indicator / trigger & function buttons / Vibrator / audible tone

#### Regulatory

EMC RF ESD

CE, FCC, BSMI, CCC CE, FCC, NCC, SRRC Functional after 4KV contact, 8KV air discharge

#### Accessories

Battery pack, micro USB to USB cable, wrist strap, 1 & 5 slot charging cradle (optional)

Battery Pack USB Cable

1-Slot

5-Slot Charging Cradle Charging Cradle
